Professional Summary

MCA student specializing in Cybersecurity with hands-on project experience in network scanning, vulnerability detection, and network traffic analysis. Skilled in Python, Nmap, Wireshark, Snort, and Linux, with a strong foundation in networking and security concepts. Interested in Security Operations, threat detection, SIEM monitoring, and incident response.

Education

- **MCA** *2025-2027*
  Centurion University of Technology And Management,Bhubaneswar SGPA: 8.30 (Sem 1), 9.04 (Sem 2)
- **Bachelor of computer Applications** *2022-2025*
  Berhampur University Percentage: 74%
- **12th(Science)** *2020-2022*
  Biswasray Science College, Pattapur CHSE, Odisha
- **10th** *2020*
  S.R.K. Bidyapeetha,Erendra BSE, Odisha

Personal Projects

Network Scanning and Vulnerability Detection System *March – April 2026*

– Developed a Python-based network scanning tool to identify active hosts, open ports, running services, and potential security vulnerabilities.
Technologies: Python, Nmap, Socket Programming, Scapy, SQLite, Streamlit, Wireshark.
Implemented automated host discovery, TCP/UDP port scanning, service detection, OS fingerprinting, and packet analysis.
Integrated SQLite for scan-result storage and Streamlit dashboards for visualization and security reporting.

Network Intrusion Detection System (NIDS) using Snort (In Progress) *2026*

– Developing a Network Intrusion Detection System to monitor network traffic and identify suspicious activities using Snort.
Tools: Snort, Wireshark, Nmap, Wazuh and Linux.
– Configuring detection rules to identify suspicious network traffic and potential security threats.
– Analyzing network packets and monitoring alerts to understand intrusion detection techniques.

Technical Skills

Programming: Python, Java, C, Socket Programming
Cybersecurity Tools: Nmap, Wireshark, Snort, Wazuh, Scapy
Networking: TCP/IP, TCP/UDP, DNS, HTTP/HTTPS, OSI Model
Operating Systems: Kali Linux, Windows
Databases & Development: MySQL, SQLite, Streamlit
Security Concepts: Network Scanning, Port Scanning, Packet Analysis, Intrusion Detection, Vulnerability Assessment, Log Analysis

Training And Certification

- **NPTEL – Computer Networks | Elite Certificate | 61% | 2026**
- **GeeksforGeeks – Course Completion Certificate (CUTM Training Program)**
- **Cisco – Ethical Hacking Course (In Progress, 70%)**

Internship Experience

- **Full Stack Development Intern** Cognifyz IT Solutions Pvt. Ltd. *Apr 2026 – May 2026*
- **Cyber Security Intern** CodeAlpha (Virtual) – Packet Sniffing, Phishing Awareness, Secure Coding *Jun 2026*
